ABOUT AMALST

Amalst is a WOSB- and MBE-certified small business dedicated to providing high-quality laboratory, scientific, and healthcare products to federal, state, and local agencies. We also distribute a broad range of professional-grade equipment, electronic instruments, and technical components to support diagnostic, educational, and engineering applications.

With a growing footprint in test and measurement solutions, Amalst is committed to supply chain excellence, compliance, and customer satisfaction. We also support environmentally responsible procurement through efficient sourcing, reduced waste handling, and alignment with agency sustainability goals where applicable.

We believe science, technology, and healthcare should converge to deliver precision, innovation, and long-term impact.
